Corporation.

OFFICERS.

Clerks.

GEORGE W. HANCOCK,
716 Chestnut Street, Philadelphia.
FANNIE WILLETS LOWTHORP,
Trenton, N. J.

Treasurer.

ROBERT BIDDLE,
507 Commerce Street, Philadelphia.

Board of Managers.

Term expires Twelfth Month, 1892.

EDWARD H. OGDEN, 314 Vine Street, Philadelphia.	CATHARINE UNDERHILL, Jericho, L. I.
ELI M. LAMB, 1432 McCulloh St., Baltimore, Md.	CLEMENT M. BIDDLE, 815 Arch Street, Philadelphia.
ANNA M. HUNT, Lansdowne, Pa.	EDWARD STABLER, JR., 3 South Street, Baltimore, Md.
SUSAN W. LIPPINCOTT, Cinnaminson, N. J.	HANNAH H. WOODNUTT, 1816 Arch Street, Philadelphia.

Term expires Twelfth Month, 1893.

JOHN T. WILLETS, 303 Pearl Street, New York.	JANE P. DOWNING, 1613 Race Street, Philadelphia.
CHARLES M. BIDDLE, 507 Commerce Street, Philadelphia.	SARAH H. POWELL, 324 West 58th Street, New York.
DANIEL UNDERHILL, Jericho, L. I.	HELEN COMLY WHITE, Lansdowne, Pa.
EMMOR ROBERTS, Moorestown, N. J.	ELIZABETH B. PASSMORE, Oxford, Chester Co., Pa.

Term expires Twelfth Month, 1894.

ISAAC H. CLOTHIER, 8th and Market Sts., Philadelphia.	SOPHIA U. WILLETS, Manhasset, L. I.
JAMES V. WATSON, 718 Franklin Street, Philadelphia.	EDMUND WEBSTER, 1156 S. Broad Street, Philadelphia.
HERMAN HOOPES, 516 Minor Street, Philadelphia.	EMMA MCILVAIN, 59th St. and Elmwood Ave., Phila.
ANNIE SHOEMAKER, 112 Carpenter St., Germantown.	REBECCA C. LONGSTRETH, Sharon Hill, Delaware Co., Pa.

Term expires Twelfth Month, 1895.

JOSEPH WHARTON, P. O. Box 1332, Philadelphia.	WILSON M. POWELL, 324 W. 58th Street, New York.
* M. FISHER LONGSTRETH, Sharon Hill, Delaware Co., Pa.	MARY C. CLOTHIER, Wynnewood, Pa.
MARY WILLETS, 309 Chestnut St., Trenton, N. J.	WILLIAM M. JACKSON, 335 W. 18th Street, New York.
LYDIA H. HALL, Swarthmore, Pa.	RACHEL W. HILLBORN, Swarthmore, Pa.

* Deceased, 12th mo. 27th, 1891.

Officers and Committees of the Board.

President.

JOSEPH WHARTON.

Secretary.

HERMAN HOOPES.

Auditors.

EDMUND WEBSTER,

JOHN T. WILLETS.

Executive Committee.

EMMOR ROBERTS,

MARY WILLETS,

DANIEL UNDERHILL,

JANE P. DOWNING,

CHARLES M. BIDDLE,

ANNA M. HUNT,

GEORGE W. HANCOCK,

SUSAN W. LIPPINCOTT,

EDMUND WEBSTER,

EMMA MCILVAIN,

CLEMENT M. BIDDLE,

HANNAH H. WOODNUTT,

EDWARD H. OGDEN,

MARY C. CLOTHIER,

ELI M. LAMB,

ELIZABETH B. PASSMORE,

Ex-officio, HERMAN HOOPES.

Finance.

EDWARD H. OGDEN,

JAMES V. WATSON,

CHARLES M. BIDDLE.

Instruction.

ANNIE SHOEMAKER,	M. FISHER LONGSTRETH,
EMMOR ROBERTS,	LYDIA H. HALL,
HERMAN HOOPES,	ANNA M. HUNT,
MARY WILLETS,	HELEN COMLY WHITE,
SUSAN W. LIPPINCOTT,	RACHEL W. HILLBORN.

Building and Property.

EDWARD H. OGDEN,	GEORGE W. HANCOCK,
EMMOR ROBERTS,	EDMUND WEBSTER,
DANIEL UNDERHILL,	CLEMENT M. BIDDLE,
JANE P. DOWNING,	RACHEL W. HILLBORN.

Museum and Laboratories.

WILLIAM M. JACKSON,	MARY WILLETS,
ANNA M. HUNT,	GEORGE W. HANCOCK.

Friends' Historical Library.

EDWARD STABLER, JR.,	FANNIE WILLETS LOWTHORP,
ISAAC H. CLOTHIER,	LYDIA H. HALL.

Trusts, Endowments, and Scholarships.

ISAAC H. CLOTHIER,	EDWARD H. OGDEN,
DANIEL UNDERHILL,	CLEMENT M. BIDDLE, <i>Treasurer.</i>
M. FISHER LONGSTRETH, <i>Secretary.</i>	

Trustees of Endowed Professorships.

ISAAC H. CLOTHIER,	EDWARD H. OGDEN,
EMMOR ROBERTS.	

Faculty.*

1891-92.

CHARLES DE GARMO,
President.

ELIZABETH POWELL BOND,
Dean.

PROF. EDWARD H. MAGILL.

PROF. ARTHUR BEARDSLEY.

PROF. WILLIAM HYDE APPLETON.

PROF. SUSAN J. CUNNINGHAM.

SUPT. WILLIAM J. HALL.

PROF. WILLIAM PENN HOLCOMB.

PROF. BENJAMIN SMITH.

PROF. WILLIAM C. DAY.

PROF. FERRIS W. PRICE.

PROF. GEORGE A. HOADLEY.

PROF. SPENCER TROTTER.

PROF. MILTON H. BANCROFT.

ESTHER T. MOORE.

* BY-LAWS,—“The President, Dean, and such of the resident Professors and others as may be elected by the Board, shall constitute the Faculty. They shall hold regular meetings, arrange the course of study, determine the qualifications for admission and for graduation, decide upon rules of order, and determine all questions pertaining to the discipline or instruction, subject to the approval of the Executive Committee, to whom they shall report monthly.”

Officers of Instruction.*

CHARLES DE GARMO, Ph.D.,
President.

ELIZABETH POWELL BOND,
Dean.

EDWARD H. MAGILL, LL.D.,
Professor of the French Language and Literature.

ARTHUR BEARDSLEY, C.E., Ph.D.,
I. V. Williamson Professor of Engineering, and Director of the Workshops.

WILLIAM HYDE APPLETON, A.M., Ph.D.,
Professor of Greek and of English Literature.

SUSAN J. CUNNINGHAM, Sc.D.,
Edward H. Magill Professor of Mathematics and Astronomy

WILLIAM PENN HOLCOMB, Ph.D.,
Joseph Wharton Professor of History and Political Science.

BENJAMIN SMITH, A.M.,
Professor of Logic, Mental and Moral Philosophy.

WILLIAM CATHCART DAY, Ph.D.,
Professor of Chemistry.

SPENCER TROTTER, M.D.,
Professor of Biology and Geology.

MILTON H. BANCROFT,
Professor of Art and Mechanical Draughting.

GEORGE A. HOADLEY, C.E., A.M.,
Professor of Physics.

FERRIS W. PRICE, A.M.,
Isaac H. Clothier Professor of the Latin Language and Literature.

* Arranged, with the exception of the President, in the order of appointment, as : Professors, Assistant Professors, and other Instructors.

MYRTIE E. FURMAN, B.O.,

Assistant Professor in charge of Elocution.

MARIE A. KEMP, A. B.,

Assistant Professor of German.

FLORENCE YOST HUMPHRIES, Ph.B.,

Instructor in Rhetoric and Composition.

JOHN C. GIFFORD,

Instructor in Botany.

MARY J. MURPHY,

Director of Physical Culture for the Young Women.

J. K. SHELL, M.D.,

Director of Physical Culture for the Young Men.

EMILY G. HUNT, M.D.,

Lecturer on Physiology and Hygiene to the Young Women.

JOHN H. HUMPHRIES, Lit.B.,

Assistant in Mathematics.

MARION BOLAN,

Assistant in Drawing.

STEWART WOODFORD YOUNG, B.S.C.,

Assistant in Chemistry.

JOSEPH BAYLEY, JR.,

Assistant in Engineering.

ESTHER T. MOORE, A.B.,

Secretary to the President, and Registrar.

SARAH M. NOWELL,

Librarian.

BIRTHPLACE OF BENJAMIN WEST.
THE WEST HOUSE.

ERECTED 1724.

Students.

General Information.

Buildings and Grounds.

Swarthmore College was founded in 1864 by members of the religious Society of Friends, to provide the children of the Society and others with opportunities for higher education under guarded care. With this object in view, a property of two hundred and forty acres was secured, ten miles from Philadelphia, on the Central Division of the Philadelphia, Wilmington, and Baltimore Railroad. It is accessible by trains from the Broad Street Station, twenty-three times daily. About half the land is used for farming purposes, providing milk and vegetables for the College; the remainder is devoted to lawn and pleasure-grounds. Crum Creek, which forms the western boundary of the property, affords facilities for boating, bathing, and skating. The portion of the grounds bordering the stream is of great picturesque beauty. The building site is high, securing perfect drainage and pure air and commanding a fine view of the surrounding country for many miles.

The Principal College Building is a massive stone structure 348 feet long. It consists of a central building, five stories high, containing public rooms, such as lecture-rooms, museum, library, reading-rooms, parlors, dining-hall, etc. Fire-proof compartments separate this building from the two wings. The latter are each four stories high. The ground-floors are devoted to lecture and recitation-rooms; the remaining floors in the east wing contain the dormitories of the young women, and in the west wing those of the young men. A number of the instructors reside in the same building with the students, and the relations between them are such that there is comparative freedom from the dangers and temptations ordinarily incident to college life. The buildings are heated throughout by steam, lighted by gas, and thoroughly ventilated.

The Science Hall is constructed of stone, in the most durable manner, and was planned with special reference to the work of stu-

SWARTHMORE COLLEGE.
(MAIN BUILDING LOOKING WEST.)

dents in Engineering, Physics, and Chemistry. It has a frontage of 130 feet, and a depth of 64 feet. The basement contains the testing laboratory, the wood-working shop, the blacksmith shop, and the foundry of the engineering department, and store-rooms. On the first floor are the machine shop and engineering lecture-room, and the chemical and physical laboratories, and on the second floor are the draughting-rooms and the chemical lecture-room.

The Astronomical Observatory is especially arranged for purposes of instruction. The plan embraces a central building supporting the dome, and two wings. There are four rooms: a transit-room, in which is placed an instrument of three-inch aperture, also the mean-time clock; a pier-room, at present utilized as a sidereal-clock room; a work-room, in which is placed a small library of reference books, the chronograph and chronometer; and the dome, containing the equatorial of six-inch aperture. In connection with this latter instrument, there is a micrometer and a spectroscope. The transit and equatorial were constructed by Warner & Swasey, of Cleveland, and the spectroscope by Brashear, of Allegheny. The equipment is ample for class-work. Connected with the observatory is the Signal Service Station of the State Weather Bureau, fully provided with the necessary meteorological and other apparatus.

Other Buildings are a meeting-house, the President's house, the West house (birthplace of Benjamin West, now used as a professor's residence), the house of the Professor of Astronomy, the Farmer's house and commodious farm-buildings, the laundry and bakery, and the boiler-house, containing the sectional boilers for heating and cooking purposes. All these buildings are constructed of stone.

Libraries and Reading-Room.

The Libraries of the College collectively contain 14,882 bound volumes, as follows:

The General Library	9,908
Literary Societies' Library	3,264
Friends' Historical Library	1,710

Members of the Senior Class are permitted, under proper regulations, to consult the Philadelphia Library, containing 145,000 vol-

umes, and the Mercantile Library, containing 150,000 volumes, as well as the valuable special and technical Libraries in the city of Philadelphia. The General Library is at all times accessible to students. The Librarian will aid students in consulting the Library and in arranging courses of reading.

Friends' Historical Library, founded by the late Anson Lapham, of Skaneateles, N. Y., consists of a valuable collection of Friends' books, photographs of representative Friends, and manuscripts relating to the Society and its history, and is, upon application to the Librarian, accessible to all persons interested in the doctrines and history of Friends. This collection is stored in a fire-proof apartment, and it is hoped that Friends and others will deem it a secure place in which to deposit books and other material in their possession which may be of interest in connection with the history of the Society. Such contributions as well as additional funds for its growth and maintenance are solicited, and should be addressed to "Friends' Historical Library, Swarthmore, Pa."

The Reading-Room is supplied with the leading literary and scientific journals and the prominent newspapers of the principal cities.

Literary Societies are maintained by the students. There are two for young men and one for young women. These hold regular meetings for the reading of essays, etc., and for practice in debate. Their Libraries, under their own management, contain over three thousand volumes and are accessible to all students.

A Scientific Society, a Natural History Club, and an Architectural Club are also maintained by the students.

The Museum.

The Museum of the College is strictly a teaching collection, and the specimens from its cases are in constant use in the lectures and laboratories in Biology; it is growing steadily, but always in the direction of rendering more perfect the means of illustrating the different departments of natural history, and with no intention of making it a collection of curiosities or miscellaneous articles, however interesting they may be in their way.

MUSEUM.

It includes the following collections :

1. The *Joseph Leidy Collection of Minerals*, the result of thirty years' discriminative collecting by its founder, occupies four large double cases, and consists of exceedingly choice cabinet specimens of crystallized minerals, characteristic rocks and ores, and transparent and opaque models of the various systems of crystallization.

2. The *Collection of Comparative Osteology* consists of a large series of partial and complete skeletons, prepared at Prof. Henry Ward's Natural History Establishment, in Rochester, N. Y., and illustrating the structure of the framework of backboned animals.

3. The *Wilcox and Farnum Collection of Birds*, comprises four large double cases of stuffed specimens of native and foreign birds. Nearly all the species visiting this State are represented.

4. The *Frederick Kohl Ethnological Collection* consists of two cases of Indian implements, weapons, clothing, etc., mostly from Alaska.

5. The *C. F. Parker Collection of Shells* is made up of six large cases of choice typical land, fresh water, and marine shells. These specimens were all selected by the Curator from the extensive collection of the late C. F. Parker, and render further additions to this branch needless. The founder of this collection was for many years the Curator in charge of the Academy of Natural Sciences of Philadelphia.

6. The *Robert R. Corson Collection of Stalactites, Stalagmites, and Helictites*, represents the celebrated Luray Caverns, and illustrates the limestone formations which render these caverns the second in magnificence in the world.

7. The *Eckfeldt Herbarium* consists of over two thousand plants, illustrating the flora of Pennsylvania.

In addition to the above, there is a large and constantly increasing collection of stuffed and alcoholic specimens of vertebrates and invertebrates (including the U. S. Fish Commission Educational Collection), of dissected specimens for demonstration in the lectures on Physiology and Hygiene, glass and papier-maché models of invertebrates and of special points in vegetable and animal morphology, besides some three hundred classified diagrams and finely colored charts illustrating every branch of natural history.

The Gymnasium.

The *Gymnasium* is supplied with a full set of apparatus for exercising according to the system of Dr. Sargent. The exercises are conducted in separate classes for the young men and young women, and are required of all.

Students are requested to bring from home a physician's certificate, if there is any cause that would make it dangerous for them to take part in the exercises required.

A large room in the main building also is set apart for the exercises of the young women.

The extensive and beautiful grounds connected with the College invite to out-door exercise, which is encouraged by the authorities. On the highest and driest part of the campus, a space has been prepared for athletic games, with a quarter-mile cinder running-track, a well-graded field for foot-ball and base-ball, whilst the surrounding country offers facilities for cross-country running.

General Regulations.

Religious Exercises.—While care is taken to inculcate the doctrine that religion is a matter of practical daily life, and is not confined to the observance of set forms or the promulgation of religious tenets, the regular assembling for religious purposes is carefully observed. On First-day morning, a religious meeting is held, attended by students, teachers, members of the household, and Friends of the neighborhood. The meeting is preceded by First-day school exercises, consisting of the recitation of passages of Scripture prepared by members of the different classes, and the reading of a portion of Scripture. The daily exercises are opened by a general meeting for reading selected portions of Scripture or other suitable books, and for imparting such moral lessons as circumstances seem to require, followed by a period of silence before entering upon the duties of the day.

Permission to leave the College grounds will be granted or refused according to the written request of the parents. In the absence of such request the Faculty will exercise its own discretion in the matter.

Students may be visited on week-days, by parents or guardians or near relatives, or by others approved by parents or guardians ; but general visiting is discouraged. *Students must not be interrupted in their studies or recitations at any time, nor must they be visited on First-day.*

All persons who are interested in education, and who are desirous of examining the methods of instruction and discipline at Swarthmore, will be welcomed at any time, and should, when convenient, communicate with the President upon the subject in advance.

The use of Tobacco being strictly prohibited, those addicted to its use, unless prepared to renounce it entirely, should not apply for admission.

Commencement and Vacations.—The College year begins on the second Third-day of Ninth month, and closes with Commencement-day, which occurs on the third Third-day of Sixth month.

Students are not admitted for a period less than the current College year ; but, when vacancies exist, they may enter at any time during the year.

Besides the summer vacation, there will be a recess of about ten days at the close of the Twelfth month, one week in the Third month, and three days at Thanksgiving. (See Calendar.)

Students are permitted to remain at the College, under care, during the recesses, but not during the summer vacation.

The Household.—In the organization of this institution, unusual care has been extended to the personal comfort and the social interests of the students. This department is in charge of the Dean, with able assistants. She has also special oversight of the conduct and health of the young women, and parents are desired to communicate freely with her in regard to the welfare of their daughters.

Expenses.

The cost of Board and Tuition is \$450 per year, of which \$250 is payable in advance, and \$200 on the first of First month.

A deduction of \$100 per year from the above charge is made to all students who are children of members of the religious Society of Friends.

For Day Students, the price is \$200 per year, of which \$100 is payable in advance, and the remainder on the first of First month. A deduction of \$50 per year from this charge is made to all students who are children of members of the religious Society of Friends. The day students take lunch with the resident students.

Students purchase their own books, which the College will furnish at the lowest obtainable rates. They also buy their own stationery, drawing implements, and certain tools and materials used in the workshops; and pay at a reasonable rate for laundry work done at the College. Students taking laboratory courses will make a deposit of \$10 at the beginning of the course to cover the expense of the material used. The unexpended balance will be returned at the end of the course.

In case of illness, no extra charge is made unless a physician be employed.

The above figures may be depended upon as covering all necessary expenses.

Payments.

Payments are to be made by check or draft to the order of

ROBERT BIDDLE, Treasurer,

NO. 507 COMMERCE STREET, PHILADELPHIA.

Introductory.

The studies required for a Degree extend over four years. The requirements for admission are intended to be such as Friends' schools generally can meet. Owing to the enforcement of regular hours for study, and the absence of all opportunity for dissipation, the amount accomplished in four years is large, and is believed to afford a sufficient preparation in classics, science, and general culture for the ordinary avocations of life, for the study of any of the learned professions, or for the pursuit of special courses in the higher universities.

Time and Conditions of Admission.

To secure places, application for admission should be made as early as possible by letter to the President.

All applicants must submit satisfactory testimonials of good character from their last teachers, and students coming from another college must present certificates of honorable dismissal.

The examinations for admission may be taken either in the summer at the close of the college year, or in the fall. The times are as follows for the year 1892.

Summer Examinations, 1892.

Sixth-day, Sixth Month, 17th, at	8.15 A.M.	. Mathematics.

" " " "	9.15 A.M.	. German.
" " " "	10.15 A.M.	. French.

Fall Examinations, 1892.

Candidates should present themselves at the College on the afternoon of Third-day, Ninth month, 13th, 1892.

The Examinations will occur as follows :

Fourth-day, Ninth Month, 14th,	8.15	A.M.	Mathematics.
" " " "	10.30	A.M.	English.
" " " "	11.30	A.M.	Geography.
" " " "	2	P.M.	History.
" " " "	3	P.M.	Latin.
" " " "	4	P.M.	Greek.
Fifth-day, Ninth Month, 15th,	8.15	A.M.	Physical Geography.
" " " "	9.15	A.M.	German.
" " " "	10.15	A.M.	French.

Students are also admitted at any time during the year, and are charged for the unexpired time until the close of the year.

Requirements for Admission.

All candidates for admission to the Freshman Class will be examined in the following subjects :

1. MATHEMATICS.—*Arithmetic*.—Entire.

Algebra.—Through Equations of the second degree.

Geometry.—The whole of Plane Geometry.

2. ENGLISH.—The candidate will be asked to write a few pages upon some assigned subject, or from dictation. This exercise will be examined with reference to Grammar, Spelling, Paragraphing, Punctuation, and the use of Capitals. An examination will also be given in the principles of the grammar.

3. HISTORY.—A thorough preparation in the outlines of the history of the United States and of England. The amount required in each subject being equivalent to what is contained in the following text-books: Scudder's or Eggleston's School History of the United States, and Gardiner's School History of England, or Edith Thompson's History of England (Freeman's Historical Series).

4. GEOGRAPHY.—The general facts of Physical Geography, Descriptive and Political Geography, especially of the United States and Europe.

5. In addition to the above candidates will be examined as follows :

(1) *For the Classical Course in*

LATIN.—Cæsar, Gallic War, four books; Virgil's *Æneid*, six books; Allen's Latin Composition, Part I.

Greek is not required for admission, but a course of three years is required in College for the Degree of A. B. See page 41.

(2) *For the Literary Course*, in English Literature and in French or German.*

ENGLISH LITERATURE.—Candidates are expected to be familiar with Longfellow's *Tales of a Wayside Inn*, Lowell's *Vision of Sir Launfal*, Irving's *Sketch Book*, Whittier's *Tent on the Beach*, Hawthorne's *House of the Seven Gables*, and to write a short composition upon a subject taken from one of these works.

FRENCH.—*French Grammar*.—Inflections of regular verbs and auxiliaries; forms of articles, nouns, adjectives, and pronouns; common irregular verbs; general principles of Syntax. Super's *Preparatory French Reader*; varied selections (entire); dictées.

GERMAN.—Otto's *Shorter Course in German Grammar* entire, or equivalent. Reading of *Aus Meiner Welt*, Grimm's *Märchen*, German Ballads, *Der Neffe als Onkel*; memorizing of easy selections.

(3) *For the Engineering Course*, in English Literature and in French or German,* as above.

(4) *For the Science Course*, in English Literature and in French or German,* as above.

Students applying for admission into the Freshman Class who may be found unable to meet all requirements, will be afforded an opportunity of completing their preparation by entering the recently established Sub-Collegiate Class. This privilege will, however, be accorded to those only who shall be able to complete such preparation in a period not longer than one year.

Admission Without Examination.—Graduates of the following Schools are admitted to the Freshman Class without examination upon presenting regular certificates properly filled up by the Principals of the Schools named.†

Friends' Central School,	Philadelphia, Pa.
Friends' Seminary,	New York, N. Y.
Friends' High School,	Baltimore, Md.

* Latin will be accepted as an equivalent of French or German for admission to this Course.

† Other Friends' Schools may on application be added to the above list, if the Faculty and Instruction Committee shall be satisfied that they are taught by competent teachers and are furnishing the requisite preparation for admission.

Woodstown Academy,	Woods'own, N. J.
Friends' School,	Wilmington, Del.
Friends' High School,	West Chester, Pa.
Friends' High School,	Moorestown, N. J.
Buckingham Friends' School,	Lahaska, Pa.
Friends' Academy,	Locust Valley, L. I.
Friends' Select School,	Washington, D. C.
Sherwood School,	Sandy Spring, Md.
Friends' School,	Kennett Square, Pa.
Providence Preparative Meeting School,	Media, Pa.
Oakland Boarding School,	Fallston, Md.
Friends' Normal Institute,	Rising Sun, Md.

Blank certificates will be furnished each year to the Principals of these preparatory Schools and to such private teachers as may be named for the privilege. The right is reserved, however, to withdraw from such School or teacher the privilege of sending pupils into College on certificates.

Pupils from these Schools intending to enter the College, should apply by letter for places as soon as convenient after the completion of their preparation. They should present themselves at the College on Fifth-day, Ninth month, 15th, 1892.

Principals of other Schools who wish to have students admitted on their recommendation, should correspond with the President concerning each case.

Examinations for Higher Classes.—Candidates for classes higher than the Freshman Class must pass satisfactorily in all the subjects pursued by the lower class or classes; and students coming from other Colleges must present letters of honorable dismissal and must show that they have pursued courses of study equivalent to those taken by the classes they wish to enter.

The Sub-Collegiate Class.—In consequence of the action of the Board of Managers at a meeting held Twelfth month, 2d, 1889, the Preparatory School was formally abolished, its existence terminating at the close of the academic year, 1889-90. Instead of the Preparatory School, a class to be known as the Sub-Collegiate Class was established to afford students who are not at the time of application sufficiently advanced to enter the Freshman Class, an opportunity for making up their deficiencies, provided that this can be accomplished in a period not greater than one year.

Candidates for admission to the Sub-Collegiate Class will be examined in the following subjects :

1. MATHEMATICS.—*Arithmetic*.—Entire.

ALGEBRA.—To Quadratic Equations.

2. ENGLISH.—Composition ; Grammar.

3. HISTORY.—A thorough preparation in the outlines of the history of the United States and of England. The amount required in each subject being equivalent to what is contained in the following text-books : Scudder's or Eggleston's School History of the United States, and Gardiner's School History of England, or Edith Thompson's History of England (Freeman's Historical Series).

GEOGRAPHY.—The general facts of Descriptive and Political Geography, especially of the United States and Europe.

LATIN.—(Required of students in Arts.) Cesar, Gallic War, two books ; Virgil's *Aeneid*, one book ; Grammar, Paradigms.

Partial Courses of Study.—A limited number of teachers and other persons of fair education and of sufficiently mature age who may wish to improve themselves in particular studies, will be received without examination, and allowed to elect, in any of the regular classes, such work as they can pursue to advantage. They should in all cases correspond with the President in advance.

Courses of Instruction.

ALPHABETICALLY ARRANGED.

For required and elective studies, and the number of exercises per week in each, see page 50.

Biology and Geology.

Under this head are included the studies of Zoology, Botany, and Physiology.

The subjects are so arranged, throughout the four College years, that they form a graded course, admirably adapted to the purpose of training young men and young women in the right methods of thinking about and interpreting the problems continually presented to them by natural objects. While lectures and text-books are used to inspire the members of the class to study, these means are supplemented, in so far as possible, by drill in the Laboratory and field; by which the students become accustomed to see for themselves, to gather facts, to study and arrange them, and to deduce the principles involved. The course is arranged as follows :

ZOOLOGY AND BOTANY.

The course in Zoology consists of two lectures a week to the Sophomore and Freshman Classes, on the various groups of animals, their classification, anatomy, development, distribution, habits, and economic relations; it extends over two years. The lectures are illustrated by means of a large collection of colored charts and diagrams, and by specimens from the very complete set of skeletons, stuffed and preserved animals, shells and fossils.

Lectures and recitations in Elementary Botany are given during a portion of the Freshman and Sophomore years. It is intended in this course only to teach the more prominent points in vegetal morphology, to accustom the student to accurate observation, and to the use of the analytical key for the determination of plants.

CHEMICAL LABORATORY.

PHYSIOLOGY AND HYGIENE.

A course upon these subjects is prescribed for the young men of the Freshman Class, and a separate but similar course for the young women in that class. *Attendance is required of all students in the class.*

GENERAL BIOLOGY.

The practical work of the Junior Class in the Laboratory is as follows: Manipulation of microscope; the biology of some particular plants; the biology of some particular animals. That of the Senior Class is practical systematic work in the Museum, studies in comparative Osteology, and the dissection of types of backboned animals. Students will find in the Library a large number of valuable and interesting works pertaining more or less directly to Biology.

GEOLOGY.

Twice a week, throughout the Second Semester, informal discussions of geological problems, and how to treat them, accompany the practical study of hand-specimens in the Laboratory by the Senior Class. This is followed by tramps through neighboring quarries, railroad-cuts, etc., hammer in hand, under the personal supervision of the Instructor. The course is moreover illustrated by numerous charts and diagrams and by specimens from the excellent collection of typical rocks, minerals, and fossils. Leconte's "Compend of Geology" is used, supplemented by a very complete series of geological maps, works of reference, and lantern-slides.

MINERALOGY.

Lectures and recitations once a week in Crystallography and Descriptive Mineralogy, with two periods per week of practice in determining minerals by their physical properties and by means of the blow-pipe; the whole counting as two periods for the Senior Class. Students in Mineralogy will have access to the Leidy Collection of Minerals.

Chemistry.

The course of instruction in this subject extends over a period of four years, and aims to impart a thorough understanding of the most essential facts and principles of the science, while special attention is

given to the cultivation of systematic habits of manipulation, so that, besides possessing value as part of a liberal education, it forms a foundation for such pursuits in life as require this knowledge.

Those who may desire to continue their work beyond the limits of the regular course will have suitable work assigned them, and will find every facility for carrying it on.

The Chemical Laboratory occupies rooms in Science Hall. It includes a room for work in general Chemistry and Qualitative Analysis, one for Quantitative Analysis, and a basement room for Assaying and Metallurgy. Near to these are store-rooms, a balance-room, and a lecture-room. The Laboratory tables are covered with glazed tiles; fume-closets, suction for filtration, water and gas are provided. The lecture-room, with a seating capacity of one hundred, is furnished with water, gas, fume-closets, and abundant apparatus for lecture purposes. For lecture illustration, there is an excellent collection of the metals and their salts, and a cabinet of minerals (deposited by Hugh Foulke); in addition to these, there is a complete set of typical preparations for use in the course in Organic Chemistry.

Chemical Library.—In all cases students are encouraged in the habit of consulting for themselves the best authorities; and in a room near to the Laboratory there will be found a number of standard works on Chemistry; among them may be mentioned Watt's "Dictionary of Chemistry," Roscoe and Schorlemmer's "Treatise on Chemistry," besides numerous other works on technical and analytical chemistry, and current chemical journals.

Text-Books.—As the student advances in the course the following text-books are used: "Elementary Chemistry," Remsen; "Introduction to Qualitative Analysis," Beilstein; "Introduction to the Study of the Compounds of Carbon," Remsen; "Quantitative Chemical Analysis," Fresenius; "Theoretical Chemistry," Remsen.

FRESHMAN CLASS.

a. *Lectures (Experimental).*—General Elementary Chemistry (non-metals and metals), with examinations.

b. *Laboratory-Work.*—Special exercises on topics previously discussed in the lectures.

SOPHOMORE CLASS.

a. Lectures.—Theoretical Chemistry, followed by Qualitative Analysis.

b. Laboratory-Work.—Qualitative followed by Quantitative Chemical Analysis.

JUNIOR CLASS.

a. Lectures.—Chemistry of the compounds of carbon.

b. Laboratory-Work.—Quantitative Analysis, followed by a number of exercises in important, typical, organic transformations.

SENIOR CLASS.

The course during this year consists largely of laboratory work. A few special subjects are given to each student, with the understanding that he is to fulfil the practical and theoretical requirements of these subjects in a complete, exhaustive, and scholarly manner. Such work will involve the study of technical works and a number of the current chemical journals. Meetings will occasionally be held for the consideration of important researches, as they appear from time to time in the journals.

Drawing and Painting.

A course of Freehand Drawing and Painting is open to all. Aside from its intrinsic value as a means of culture, it leads to habits of close observation, and is a very important adjunct to the other courses—especially to those of Engineering and Science.

It consists of drawing from objects and casts, and painting from still-life, flowers, etc., and a series of lectures on Practical Perspective and the History of Painting. A Sketch Class is open to the students qualified to work in it. It is held one afternoon a week for out-door sketching in the Spring and Autumn, and during the Winter-time sketches are made in the studio from casts and still-life, in color and light and shade.

The drawings required from each student before admission to the work of the advanced class are as follows :

FRESHMAN CLASS.

Pencil Outline : Cast, details of ornament ; plant or flower.

Light and Shade : Models, group ; objects ; cast, ornament.

Color : Landscape, copy ; or flower, copy.

SOPHOMORE CLASS.

Light and Shade: Cast, ornament; objects, still-life.

Color: Landscape, copy; flower, copy; objects.

JUNIOR CLASS.

Light and Shade: Cast, details of figure; group, still-life.

Color: Objects, still-life.

SENIOR CLASS.

Light and Shade: Cast, head or figure; head, sketch from life.

Color: Landscape, nature; flower or fruit, nature.

THE HISTORY OF ART.

The course in the history of art consists of lectures, illustrated by photographs, diagrams, etc., upon the sculpture of the Greek, Roman, and Renaissance periods and upon the history of painting, beginning with the early Christian schools and extending to the decline of the schools of the Renaissance. It also includes a few lectures upon criticism and upon the general laws of æsthetics. The students are required to present written sketches upon biographical, historical, and critical topics assigned at regular intervals and requiring the use of books by various recognized authorities, and also the inspection of available works of art and the different art exhibitions held in the vicinity during each season.

Engineering and Mechanic Arts.

This department, in connection with those of Physics and Draughting, is intended to give a good preparation to those students who are expecting to become either Civil or Mechanical Engineers, or to engage in any of the several specialties of engineering practice.

The studies and exercises are so arranged that the graduates will be prepared to become immediately useful in the office, works, or field, in subordinate positions, and, after a fair amount of such practice, to design and take charge of important works.

The location of the College is most favorable for residence and study, combining the quiet of the country with ready access to Phila-

MACHINE SHOP.

delphia and the many important manufacturing cities in its vicinity, and permitting frequent visits to industrial and engineering works of every kind.

The department is well provided with the necessary field instruments, transits, levels, plane-table, etc., and each student is made familiar with their use and management by practical exercises in the field and draughting-room, carefully planned to illustrate the actual practice of the engineer. Included in the work of this department is a course in the Mechanic Arts, in which regular and systematic instruction is given in thoroughly-equipped workshops, and by skilled instructors in the use of tools and machinery, and in methods and processes.

The Draughting-Rooms are lighted from the north, are furnished with adjustable tables, models, etc., are well ventilated and warmed, and are open for work during the greater part of the day.

The Engineering Laboratory contains an Olsen's testing-machine, arranged for tensile, compressive, and transverse tests, a steam-engine indicator, apparatus for hydraulic and steam-engine experiments, and other valuable instruments and appliances. It includes several shops, in which the students become familiar with the nature and properties of the materials of construction (iron, wood, brass, etc.), employed by the engineer, and with the processes of working them into the desired forms for their intended uses.

The Machine Shop contains an excellent and complete assortment of tools, including 4 screw-cutting engine lathes, 3 speed-lathes (simple and back-geared), an iron planer, a complete universal milling machine, a set of milling cutters adapted for general purposes and for making other cutters, a shaper, a twist-drill grinder, 2 upright drills, an emery grinder, a mill grinder, a grindstone, 16 vises (plain and swivel), 14 lathe chucks (combination, independent, scroll, and drill), a milling machine chuck, a rotary planer chuck, planer centres, a set of Betts's standard gauges, surface plates (Brown & Sharpe), sets of twist drills, reamers, mandrels, screw-plates, taps and dies, lathe centre grinder, a complete set of steam-fitters' tools with pipe vise, ratchet drill, etc., together with the many necessary small tools, hammers, chisels, files, etc. Additions are constantly being made to this collection, as they are needed, either by manufacture in the shops or by purchase. Power is furnished by a steam-engine and boiler, the

former fitted with an improved indicator, and the latter with the necessary attachments for determining its efficiency, etc.

The Wood-Working Shop contains 20 benches with vises, and 20 sets of wood-working tools, a grindstone, and wood-turning lathes.

The Smith-Shop contains 7 forges, 10 anvils, and sets of blacksmith tools, bench, and vise.

The Foundry contains a brass-furnace, moulders' benches, a variety of patterns, and full sets of moulders' tools.

The details of the course vary somewhat from year to year; but, in general, are represented by the following arrangement of the studies:

FRESHMAN CLASS.

Machine-Shop Practice: vise work, chipping and filing to line, scraping, fitting, tapping, reaming, hand-turning in brass and iron.

Drawing: Special geometric problems, working drawings, orthographic projections, shadows, brush work and tinting, machine drawing from copy and from measurements, gears, eccentrics, cams, pulleys, belting, etc.

Engineering: Lectures on the use of tools, on the properties of materials, etc.

SOPHOMORE CLASS.

Engineering: Analytical mechanics of solids and fluids; descriptive geometry, including shades, shadows, and perspective; and the careful construction of the more important problems; land surveying, with field practice and map drawing.

Machine-Shop Practice.—Lathe work, turning, boring, screw-cutting, drilling, planing, milling, grinding, polishing, etc., construction of a project. Lectures on machine tools, on materials of construction, etc.

Drawing.—Working drawings, sketches, drawings and blue prints for special work and projects, elements of machines, shadows and intersections, perspectives and finished drawings.

JUNIOR CLASS.

Engineering: Theory and practice of road surveying and engineering.

Geodesy.—Theory, adjustment and use of engineering field in-

struments; farm surveying; leveling; topographical, triangular, and hydrographical surveying.

Applied Mechanics.—Friction and other resistances; stress and strength of materials.

Drawing and Mechanism.—Topographical, structure, and machine drawing; principles of mechanism; visits to and sketches of special machinery and structures.

Practical Exercises in the field in the Fall and Spring months, and in general laboratory practice, including the testing of metals and building materials, the setting up, testing, and management of steam-engines, boilers, and machinery, throughout the year; with occasional visits to mechanical establishments, and to important engineering works in or near Philadelphia.

SENIOR CLASS.

Engineering: Theory and practice of road surveying and engineering, continued; building materials; stability of structures; foundations and superstructures; bridge construction.

Applied Mechanics.—Practical hydraulics; practical pneumatics; general theory of machines; theory of prime movers, steam-engines, turbines, etc.; measurement of power.

Mechanism.—Principles of mechanism, of machine design, of the transmission of power; construction and use of tools.

Drawing.—Stone-cutting problems; topographical, structure, and machine drawing; plans, profiles, and sections of road surveys; working drawings.

Practical Exercises.—As in Junior year, continued; tests of building materials; graduating thesis.

The Degree conferred at the completion of the course is Bachelor of Science in Engineering.

English Composition.

Required for all regular students.

FRESHMAN YEAR.

First Semester: Review of Sentences, Forms, Punctuation, Capitalization, etc. Constant Exercise in Writing; Abstracts, Paraphrases, Essays, Translations, etc. Once a week.

Second Semester: Use of Words, Sentence and Paragraph Building. Correction of Errors in Diction and Sentence Structure. Constant Exercises in Composition; Abbot's How to Write Clearly; Hart's Rhetoric. Twice a week.

SOPHOMORE YEAR.

Debates twice a month, alternating with papers edited by the Class; Essays based on debates. Other written exercises. Once a week.

JUNIOR YEAR.

Genung's Rhetorical Analysis. Collateral reading and original investigation; results embodied in Monthly Essays, and a Thesis at end of each Semester; Short Essays, Translations, ten-minute Sketches, etc., weekly. Once a week. For all regular students except those in Engineering Course.

SENIOR YEAR.

First Semester: Minto's Manual of English Prose. Short exercises in Composition, Business Forms, Letters, etc. Reading and original investigation embodied in Monthly Essays and Thesis at end of Semester.

Second Semester: Lectures on English Composition. Thesis work. Once a week. For all regular students except those in Engineering Courses. Once a week.

In the Junior and Senior years, the work for the students in the Engineering Course is based on technical subjects, with special drill in business forms and descriptive composition. Once a week.

English Language and Literature.

The course in English Literature extends through four years, instruction being given by recitations and lectures. During this time the English Language is studied in connection with the Literature from the Anglo-Saxon period down to the present day. The particular feature of the course is the critical reading in the class-room of representative authors, such as Chaucer, Shakespeare, Milton, Pope, Tennyson. Peculiarities of style and language are considered, allusions are looked up, and every effort made for a thorough comprehen-

sion of the work in hand. The author's life is studied in its relation to the history of the time, and his works are compared with those of his contemporaries. By this course it is expected that the student will be enabled, from his own observation, to form an intelligent estimate of the style and merits of the great authors of English Literature.

The courses offered are as follows :

FRESHMAN CLASS.

The nineteenth century. Poetry and Prose.

SOPHOMORE CLASS.

The period from about 1750, continuing into the nineteenth century.

SENIOR AND JUNIOR CLASSES.

The period from Shakespeare to Dr. Johnson.

SENIOR AND JUNIOR CLASSES.

From the Anglo-Saxon period to Shakespeare. Readings in Anglo-Saxon, Chaucer, Spenser, etc.

The last two Courses are given in alternate years.

French.

COURSE I. Time, one year. French Grammar—inflections of regular verbs and auxiliaries ; forms of articles, nouns, adjectives, and pronouns ; common irregular verbs ; general principles of syntax. Super's Preparatory French Reader ; varied selections (entire) ; Dictionnaires.

Required of Sub-Collegiate students who do not elect German, and subject of examination for entrance to Freshman Class by those who offer a year's work in French ; also first year's work for those who must begin French after entering the Freshman Class. The corresponding Course I in German may be substituted for this course by students of *Arts* and *Engineering*, or may precede it for other students.

COURSE II. Time, one year. French Grammar reviewed and completed, Fénelon's *Télémaque*, varied selections (entire) from modern

French writers, Dictées, Petit de Julleville's *Leçons de Littérature Française*.

Required of students of French who have completed Course I or have passed an entrance examination upon it.

COURSE III. Time, one year. Corneille's *Cid* and *Polyeucte*; Racine's *Athalie* and *Esther*; Molière's *Misanthrope* and *Les Précieuses Ridicules*; Victor Hugo's *Hernani* and other selections (entire) from modern French writers; Dictées, Petit de Julleville's *Leçons de Littérature Française*.

Required of students of French who have completed Courses I and II.

N. B.—Science and Engineering students will omit the Second Semester's work in this course, and substitute for it a special course in Scientific French.

NOTE.—Students in Letters and Science who complete French during their Freshman and Sophomore years will take German during their Junior and Senior years, and *vice versa*.

German.

COURSE I. Time, one year. Otto's Shorter Course in German Grammar entire, or equivalent. Reading of *Aus Meiner Welt*, Grimm's *Märchen*, German Ballads, *Der Neffe als Onkel*; memorizing easy selections.

Required of Sub-Collegiate students who do not elect French, and subject of examination for entrance to Freshman Class by those who offer a year's work in German; also first year's work for those who must begin German after entering the Freshman Class. The corresponding Course I in French may be substituted for this course by students of *Arts* and *Engineering* or may precede it for other students.

COURSE II. Time, one year. Advanced Grammar and Prose Composition. Reading of *Minna von Barnhelm*, *Hermann and Dorothea*, *Maria Stuart*.

Required of students of German who have completed Course I or have passed an entrance examination upon it.

COURSE III. Time, one year. Advanced Grammar and Prose Composition. Reading of *Aus dem Leben eines Taugenichts*, or

Aus dem Staat Friederich des Grossen ; Wilhelm Tell ; Faust, Erster Theil. Sight Reading ; Outlines of German Literature.

Required of students of German who have completed Courses I and II.

N. B.—Science and Engineering students will omit the Second Semester's work in this course and substitute for it a special course in scientific German.

NOTE.—Students in Letters and Science who complete German during their Freshman and Sophomore years will take French during their Junior and Senior years, and *vice versa*.

Greek.

Greek is not required for admission to the College, but a course of three years is required for graduation with the Degree of A. B., as per scheme below. Those who offer Greek on entering the College will go on in advanced classes. Those who have not previously studied the language will be required to complete the following courses :

SOPHOMORE CLASS.

Goodwin's Grammar, Xenophon's Anabasis, Greek Testament.

JUNIOR CLASS.

Plato's Apology and Crito, Xenophon's Memorabilia, Greek Composition.

SENIOR CLASS.

Homer's Iliad or Odyssey (six books), Euripides' Iphigenia in Tauris, History of Greek Literature (Lectures), Modern Greek (Readings in Vincent and Dickson's Hand-book, with colloquial practice).

History and Political Science.

I. HISTORY.

The instruction in History consists of lectures, recitations, oral and written reports by the students on various assigned topics that require the use of several standard authorities, map-drawing, and the preparation of diagrams to illustrate statistics. To encourage the study of History by means of biography, the preparation of biograph-

ical sketches of leading historical characters is required. All who intend to pursue the courses in History should be thoroughly familiar with the outlines of the history of the United States and England before entering the Freshman Class.

The courses offered are as follows :

FRESHMAN CLASS.

Ancient History, embracing an outline of the civilization of Egypt, Chaldæa, Assyria, Babylonia, the Hebrew nation, Phœnicia, Persia, and Lydia, and a detailed study of the history of Greece and Rome, with comparisons between their political, social, and religious institutions, and biographical sketches of many prominent characters. This course is designed as a basis for all future historical study in the later courses, and it aims to give students a true conception of the value and significance of History. Four hours a week throughout the year.

SOPHOMORE CLASS.

First Semester : *The History of Civilization in Europe* from the close of the fifth century, A.D., to the Peace of Westphalia. Two hours a week.

Second Semester : *The History of Continental Europe since the Peace of Westphalia*, with special reference to France, Germany, and Italy. Four hours a week.

JUNIOR CLASS.

First Semester : *The Social and Political History of England* during the seventeenth, eighteenth, and nineteenth centuries, with a brief survey of the progress of civilization in Mediæval England. Four hours a week.

Second Semester : *The Constitutional History of the United States*. This course embraces the history of our civil government, local, state, and national. It includes the study of our Federal Constitution and Government, the Constitution of Pennsylvania, and the leading features of other typical State Constitutions. In connection with the study of the State Department of the National Government, a course of twelve lectures will be given on the Elements of International Law, giving special attention to the important subjects of Peace and Arbitration. Four hours a week.

II. POLITICAL ECONOMY.

SENIOR CLASS.

First Semester : *The Elements of Political Economy*. A study of the general principles and the scope of the subject. Four hours a week.

Second Semester : *Advanced course in Political Economy*, including the study of special economic problems, the history of economic opinion, and as far as possible, the history of our own industrial and commercial progress. Four hours a week.

Latin.

FRESHMAN CLASS.

Cicero, Orations ; Sallust, Catiline ; Latin Composition.

SOPHOMORE CLASS.

Horace, Odes and selections from Epodes, Satires, and Epistles ; Mythology.

JUNIOR CLASS.

Remnants of Early Latin ; Plautus, Trinummus ; Terence, Phormio ; Cicero, De Senectute ; Latin Hymns.

SENIOR CLASS.

Selections from Lucretius, Catullus, Livy, Juvenal, Virgil's Georgics and Æneid (Books VII-XII) ; Tacitus, Agricola.

Sight-reading throughout the course.

The above is a statement of the work to be done during 1891-92. The authors read, as well as other work of the department, are likely to vary somewhat from year to year.

There is a Latin Society, intended to supplement the work of the class-room. It is composed of Seniors and Juniors, and meets once in five weeks. Papers prepared by the students are read and discussed under the guidance of the professor. The meetings this year will be devoted to a careful study of certain questions connected with the life of Cicero.

Logic.

SENIOR CLASS.

Two exercises a week during First Semester. (Jevons).

Mathematics.

FRESHMAN CLASS.

Wentworth's College Algebra, finished; Chauvenet's Geometry (Byerly's edition), Review and Book VI; Wentworth's and Chauvenet's Plane Trigonometry.

SOPHOMORE CLASS.

Chauvenet's Geometry (Byerly's edition), finished; Byerly's Differential Calculus; Todhunter's Conic Sections, Young's General Astronomy.

JUNIOR CLASS.

Byerly's Integral Calculus, Chauvenet's Spherical Trigonometry; Solid Analytical Geometry (elective).

SENIOR CLASS.

Chauvenet's Spherical and Practical Astronomy.

Pedagogics.

This department is in the hands of the President. Instruction in this branch of education consists, first, of a fundamental study of the principles of instruction by text-book, lectures, and practical exercises prepared by the student. A second department of work embraces a thorough-going study of each of the elementary branches in its pedagogical aspects, such as its rapidity of development in the course of study, its history as a branch of education, both as regards its introduction and growth in importance, and the various stages of method through which it has passed. A third phase of the work is the study of the government and management of schools, and a fourth the study of the history of education.

PHYSICAL LABORATORY.

Philosophy.

SENIOR CLASS.

Mental Philosophy.—First Semester: Porter's Elements of Intellectual Science is used as a text-book, and the subject is presented historically, with outlines of the different schools of Philosophy.

Moral Philosophy.—Second Semester: A system of morals is taught, practical rather than theoretical, setting forth man's duties, and the application thereto of the moral law. The text-book used is Janet's Elements of Morals.

Lectures, Discussions, Essays, Examinations.

Physical Culture.

The system of Physical Culture is based on a thorough examination of each student, carefully noting all defects of development, and functional weakness, and the ratio existing between the tested strength and the muscularity; and on these data formulating a course of exercises such as will meet the requirement of each individual, so as to produce an evenly developed and healthy organism.

The young men are required to give three hours each week for carrying out the prescription of the Director.

The sports of foot-ball, base-ball, and athletics are under the direct supervision of the Director, and only those who are physically fit are allowed actively to compete; great care is taken that the games be kept within proper limits, so as not to take too much of the students' attention or energy.

The physical culture of the young women is under the most careful supervision of a student of the Sargent system. Examinations are made and prescriptions given according to the special needs of each student.

Physics.

The Physical Laboratory is already provided with apparatus for determinations in the mechanics of solids and fluids, in heat, sound, light, electricity, and magnetism; as also with a large amount for lecture experiments. Most of this has been selected with care from the

best American and foreign makers, but some is of home manufacture ; and the co-operation of the Engineering Department and the increasing skill of our students enable us now to make each year a larger proportion for regular use in the Laboratory. It is our aim to afford students continued opportunities for instruction in the principles of construction of ordinary and special apparatus. Power for running dynamos and for other purposes is near at hand. The instruction begins in the Sophomore year, and extends through the course as follows :

For students in Arts and Letters :

SOPHOMORE CLASS.

General Physics.—This course consists of the investigation of the general laws of Physics and the consideration of their practical application.

The work of the course is done by lectures and recitations, accompanied by experimental verification of the laws discussed, and extends over the entire year.

JUNIOR CLASS.

During the Junior year, the course is an elective in Heat, Magnetism, Electricity, and Light.

FOR STUDENTS IN SCIENCE AND ENGINEERING.

This course occupies two consecutive years, requiring two periods per week in the Sophomore year, and four in the Junior. It is intended to be pre-eminently a practical course, consisting largely of laboratory work, in the investigation and verification of the laws of Physics.

The recitation work will cover the topics treated in Ganot's Physics, or some other text-book of equal rank, and will be supplemented by lectures on the various branches of the subject.

The division of the work is as follows :

SOPHOMORE CLASS.

Applied Mechanics and Dynamics, and Sound.

JUNIOR CLASS.

Heat, Magnetism, Electricity, and Light.

SENIOR CLASS.

Applied Electricity.

This is an elective of eight periods per week, counting as four. In this the Junior work in Magnetism and Electricity is supplemented by the practical study of their application in the telephone, telegraph, dynamo, electric light, motor transmission of power, etc.

Work in the manufacture and use of these various appliances, as well as in the measurement of the electrical current, is accompanied by text-book work in Ayrton's Practical Electricity and by the reading and class discussion of current electrical journals. Visits to the electrical plants of the neighboring villages and cities are made at convenient times, for the purpose of studying the machinery in actual use.

Reading and Speaking.

This course extends over four years. It consists of training in respiration, articulation, enunciation, and the Delsarte system of gesture as far as possible. Thought-conception is made the first step toward natural and effective expression. A careful study of the authors chosen is required, so that the course becomes to some extent one in English literature. The student studies critically, and becomes familiar with many selections of acknowledged excellence.

General Remarks on the Courses of Study.

In arranging the courses of study, while recognizing the fact that the domain of human knowledge is so vast that he who would succeed best must confine his attention chiefly to some chosen field, we have endeavored not to lose sight of the equally important fact that those are best equipped for work in any particular department who have the most extended view of the realm of learning as a whole.

To secure in a measure both these results, minor courses in many of the subjects of the curriculum are required of all ; while the more extended courses in each subject are taken only by those whose taste and inclination lie in that particular direction.

In pursuing this policy for several years, we have developed four distinct lines of study. In each of them are required those subjects which are essential to the logical and natural development of the course. The courses are as follows :

THE COURSE IN ARTS.

The characteristic feature of this course is the study of Classical Antiquity, including the language and literature of the Greeks and Romans, with their art, philosophy, religion, and political and social history. Combined with this are courses in Modern Languages, Mathematics, and Science, with some elective subjects. While this course affords that broad culture which should be the foundation of any subsequent career, it may be made to afford special preparation for Law or Journalism by including electives in History and Political Economy, or it may be shaped in the direction of Medicine by choosing electives in Biology and Chemistry. This course leads to the degree of *Bachelor of Arts*.

THE COURSE IN LETTERS.

This course is arranged to provide a liberal education for those who do not wish to pursue the study of the ancient languages, nor to

take all the science required in the Science Course. Its leading features are a liberal amount of English, French, and German, and of History and Political Science. It includes the amount of Mathematics usually prescribed in a college course, with a fair amount of Science, and some elective subjects, including Latin. This course leads to the degree of *Bachelor of Letters*.

THE COURSE IN SCIENCE.

The characteristic feature of this course is more extended instruction in Science than in the preceding courses, together with a fair amount of Mathematics and Modern Language study, including English. The instruction in Physics, Chemistry, and Biology is of a two-fold character; first, systematic treatment in experimental lectures; secondly, practical work in the laboratories. Thus the student acquires a familiarity, not only with the more important facts and fundamental principles of those sciences, but also with the correct methods of work, so that his course may form a foundation for subsequent higher work in any department of science. This course leads to the degree of *Bachelor of Science*.

THE COURSE IN ENGINEERING.

This course offers, in its various studies and exercises, a training which is believed to be well adapted to the needs of Civil and of Mechanical Engineers, as well as of the large class who are to be concerned with the material interests of the country, with manufacturing, with industrial pursuits, or with any of the many other occupations allied to Engineering. It embraces liberal and technical instruction in the mathematical, physical, and graphical sciences, and their applications in practical field engineering, in the arts of design and construction, and in the use of tools, materials, and machinery, and in processes. This course leads to the degree of *Bachelor of Science in Engineering*.

Studies of the Course in Arts.

Freshman Year.

FIRST SEMESTER.

Prescribed.—Latin, 4; French or German, 4; Mathematics, 4; History, 4; Elocution, 2; Biology, 2; Composition, 1.

Extras.—Drawing and Painting, 4=2; History, 2.

SECOND SEMESTER.

Prescribed.—Latin, 4; French or German, 4; Mathematics, 4; Rhetoric, 2; History, 4; Biology, 2.

Extras.—Drawing and Painting, 4=2; Elocution, 2.

Sophomore Year.

FIRST SEMESTER.

Prescribed.—Greek, 4; Latin, 4; French or German, 4; Mathematics, 4; Physics, 2; Biology, 2; Composition, 1.

Extras.—Drawing and Painting, 4=2; Elocution, 2.

SECOND SEMESTER.

Prescribed.—Greek, 4; Latin, 4; French or German, 4; Physics, 2; Biology, 2; Composition, 1; Electives, 4.

Electives.—History, 4; English, 4; Descriptive Astronomy, 2; Elocution, 2.

Extras.—Drawing and Painting, 4=2.

Junior Year.

FIRST SEMESTER.

Prescribed.—Greek, 4; Latin, 4; Chemistry, 4; Composition, 1; Electives, 8.

Electives.—French or German, 4; History, 4; English, 4; Biology, 6=4; Pedagogics, 2.

Extras.—Drawing and Painting, 2; Elocution, 2.

SECOND SEMESTER.

Prescribed.—Greek, 4; Latin, 4; History, 4; Composition, 1; Electives, 8.

Electives.—French or German, 4; English, 4; Chemistry, 4; Biology, 6=4; Pedagogics, 2; Elocution, 2.

Extras.—Drawing and Painting, 2.

Senior Year.

FIRST SEMESTER.

Prescribed.—Greek, 4; Mental and Moral Philosophy, 4; Political Science, 4; Logic, 2; Elocution, 2; Composition, 1; Electives, 4.

Electives.—Latin, 4; Chemistry, 8=4; English, 4; Biology, 6=4; Pedagogics, 2; Mineralogy, 2.

Extras.—Drawing and Painting, 2.

SECOND SEMESTER.

Prescribed.—Greek, 4; Mental and Moral Philosophy, 4; Geology, 2; Elocution, 2; Electives, 8.

Electives.—Latin, 4; Chemistry, 8=4; English, 4; Political Science, 4; Biology, 6=4; Pedagogics, 2; Mineralogy, 2.

Extras.—Drawing and Painting, 2.

Physical Culture is required of all.

Studies of the Course in Letters.

Freshman Year.

FIRST SEMESTER.

Prescribed.—French or German, 4; Mathematics, 4; English, 4; History, 4; Elocution, 2; Biology, 2; Composition, 1.

Extras.—Drawing and Painting, 4=2.

SECOND SEMESTER.

Prescribed.—French or German, 4; Mathematics, 4; English, 4; Rhetoric, 2; Biology, 2; History, 4.

Extras.—Drawing and Painting, 4=2; Elocution, 2.

Sophomore Year.

FIRST SEMESTER.

Prescribed.—French or German, 4; Mathematics, 4; English, 4; Physics, 2; Biology, 2; Composition, 1; Electives, 4.

Electives.—Latin, 4; Elocution, 2; History, 2.

Extras.—Drawing and Painting, 4=2.

SECOND SEMESTER.

Prescribed.—French or German, 4; History, 4; English, 4; Physics, 2; Biology, 2; Composition, 1; Electives, 4.

Electives.—Latin, 4; Descriptive Astronomy, 2; Elocution, 2.

Extras.—Drawing and Painting, 4=2.

Junior Year.

FIRST SEMESTER.

Prescribed.—English, 4; History, 4; French or German, 4; Chemistry, 4; Composition, 1; Electives, 4.

Electives.—Latin, 4; Biology, 6=4; Pedagogics, 2; Elocution, 2.

Extras.—Drawing and Painting, 2.

SECOND SEMESTER.

Prescribed.—English, 4; History, 4; French or German, 4; Composition, 1; Electives, 8.

Electives.—Latin, 4; Chemistry, 6=4; Biology, 6=4; Pedagogics, 2; Elocution, 2.

Extras.—Drawing and Painting, 2.

Senior Year.

FIRST SEMESTER.

Prescribed.—English, 4; Mental and Moral Philosophy, 4; Political Science, 4; French or German, 4; Logic, 2; Elocution, 2; Composition, 1.

Extras.—Drawing and Painting, 2; Pedagogics, 2.

SECOND SEMESTER.

Prescribed.—English, 4; Moral and Mental Philosophy, 4; French or German, 4; Geology, 2; Elocution, 2; Electives, 4.

Electives.—Latin, 4; Political Science, 4; Biology, 6=4; Mineralogy, 2; Pedagogics, 2.

Extras.—Drawing and Painting, 2.

Physical Culture is required of all.

Studies of the Course in Science.

Freshman Year.

FIRST SEMESTER.

Prescribed.—Chemistry, 4; Mathematics, 4; French or German, 4; Biology, 2; Elocution, 2; Composition, 1; Electives, 4.

Electives.—Draughting, 6=4; History, 4.

Extras.—Drawing and Painting, 4=2.

SECOND SEMESTER.

Prescribed.—Chemistry, 6=4; Mathematics, 4; French or German, 4; Rhetoric, 2; Biology, 2; Electives, 4.

Electives.—Draughting, 6=4; History, 4.

Extras.—Drawing and Painting, 4=2; Elocution, 2.

Sophomore Year.

FIRST SEMESTER.

Prescribed.—Chemistry, 8=4; Mathematics, 4; French or German, 4; Physics, 2; Biology, 2; Composition, 1; Electives, 4.

Electives.—English, 4; Elocution, 2; History, 2; Draughting, 4=2.

Extras.—Drawing and Painting, 4=2.

SECOND SEMESTER.

Prescribed.—Chemistry, 8=4; Mathematics, 4; Mechanics, 4; Physics, 2; Biology, 2; French or German, 4; Composition, 1.

Extras.—Drawing and Painting, 4=2.

Junior Year.

FIRST SEMESTER.

Prescribed.—Physics, 4; Chemistry, 8=4; Biology, 6=4; French or German, 4; Composition, 1; Electives, 4.

Electives.—Mathematics, 4; Pedagogics, 2; Elocution, 2; English, 4.

Extras.—Drawing and Painting, 2.

SECOND SEMESTER.

Prescribed.—Physics, 4; Chemistry, 8=4; Biology, 6=4; French or German, 4; Composition, 1; Electives, 4.

Electives.—Mathematics, 4; English, 4; Pedagogics, 2; Elocution, 2.

Extras.—Drawing and Painting, 2.

Senior Year.

FIRST SEMESTER.

Prescribed.—Chemistry, 8=4; French or German, 4; Political Science, 4; Mental and Moral Philosophy, 4; Composition, 1; Electives, 4.

Electives.—Physics, 8=4; Biology, 6=4; Mineralogy, 2; Logic, 2; Elocution, 2; Pedagogics, 2.

Extras.—Drawing and Painting, 2.

SECOND SEMESTER.

Prescribed.—Mental and Moral Philosophy, 4; Chemistry, 8=4; French or German, 4; Geology, 2; Elocution, 2; Electives, 4.

Electives.—Biology, 6=4; Political Science, 4; Physics, 8=4; Mineralogy, 2; Pedagogics, 2.

Extras.—Drawing and Painting, 2.

Physical Culture is required of all.

Studies of the Course in Engineering.

Freshman Year.

FIRST SEMESTER.

Prescribed.—Engineering Practice, 3; Draughting, 6=3; Mathematics, 4; French or German, 4; Chemistry, 4; Biology, 2; Composition, 1.

Extras.—Drawing and Painting, 2.

SECOND SEMESTER.

Prescribed.—Engineering Practice, 3; Draughting, 6=3; Mathematics, 4; French or German, 4; Chemistry, 6=4; Rhetoric, 2.

Extras.—Drawing and Painting, 2.

Sophomore Year.

FIRST SEMESTER.

Prescribed.—Descriptive Geometry and Surveying, 4; Engineering Practice, 2; Draughting, 4=2; Mathematics, 4; Chemistry, 6=2; Physics, 2; French or German, 4; Composition, 1.

Extras.—Drawing and Painting, 2; Elocution, 2.

SECOND SEMESTER.

Prescribed.—Mechanics, 4; Engineering Practice, 2; Draughting, 4=2; Mathematics, 4; Chemistry, 6=2; Physics, 2; French or German, 4; Composition, 1.

Extras.—Drawing and Painting, 2.

Junior Year.

FIRST SEMESTER.

Prescribed.—Engineering, 4; Engineering Practice, 10=4; Mathematics, 4; Physics, 4; Composition, 1; Electives, 4.

Electives.—Chemistry, 8=4; French or German, 4.

Extras.—Drawing and Painting, 2; Pedagogics, 2; Elocution, 2.

SECOND SEMESTER.

Prescribed.—Engineering, 4; Engineering Practice, 4; Mathematics, 4; Physics, 4; Composition, 1; Electives, 4.

Electives.—Chemistry, 8=4; French or German, 4.

Extras.—Drawing and Painting, 2; Pedagogics, 2; Elocution, 2.

Senior Year.

FIRST SEMESTER.

Prescribed.—Engineering, 8; Engineering Practice, 10=4; Elocution, 2; Logic, 2; Composition, 1; Electives, 4.

Electives.—Astronomy, 4; English, 4; Chemistry, 8=4; Physics, 8=4; Mineralogy, 2; Pedagogics, 2.

Extras.—Drawing and Painting, 2.

SECOND SEMESTER.

Prescribed.—Engineering, 8; Engineering Practice, 10=4; Elocution, 2; Geology, 2; Electives, 4.

Electives.—Astronomy, 4; English, 4; Chemistry, 8=4; Physics, 8=4; Mineralogy, 2; Pedagogics, 2.

Extras.—Drawing and Painting, 2.

Physical Culture is required of all.

Studies of the Sub-Collegiate Class.

Course in Arts.

FIRST SEMESTER.

Latin, 4; Algebra, 4; Geometry, 2; French (throughout the year), 4—or German (throughout the year), 4; Reading, 2; Physical Geography, 4.

SECOND SEMESTER.

Latin, 4; Algebra, 4; Geometry, 2; Freehand Drawing, 4; French (throughout the year), 4—or German (throughout the year), 4; English, 4.

Course in Science.

FIRST SEMESTER.

Algebra, 4; Geometry, 2; French (throughout the year), 4—or German (throughout the year), 4; Physical Geography, 4; Freehand Drawing, 4; Reading, 4.

SECOND SEMESTER.

Algebra, 4; Geometry, 2; French (throughout the year), 4—or German (throughout the year), 4; Freehand Drawing, 4; Reading, 4; English, 4.

ASTRONOMICAL OBSERVATORY.

Graduation and Degrees.

As a condition of graduation, each student must submit to the Faculty a satisfactory Oration or Essay, which he must be prepared to deliver in public, if required to do so.

The Degree of Bachelor.

The Degrees of Bachelor of Arts, of Letters, and of Science are conferred on the completion of the corresponding courses.

The Degree of Master.

Candidates for the Master's Degree are required to pursue a course of study at Swarthmore, or elsewhere, under the direction of the Faculty, and to pass examination in the same. Persons residing at the College and devoting their whole time to the work can accomplish a sufficient amount in one year; for non-resident candidates, who are at the same time engaged in other work, the course must occupy not less than two years.

Application should be made directly to the Faculty, and should state the subject or subjects in which the applicants wish to present themselves. Work will then be assigned to them by the Faculty.

The Examinations for the Degrees will be both oral and written, and will be conducted by a committee of the Faculty, upon whose report the Faculty will decide upon the fitness of the candidate for the Degree.

An extended thesis, bearing upon some part of the work assigned, will in all cases be required.

The Degree of A.M. will be given to Bachelors of Arts who comply with the above conditions.

The Degree of M.L. will be given to Bachelors of Letters who comply with the above conditions.

The Degree of M.S. will be given to Bachelors of Science who comply with the above conditions.

The Degree of Civil Engineer.

The Degree of C.E. will be conferred upon Bachelors of Science of the Engineering Department who shall have been engaged for not less than three years, in successful professional practice, in positions of responsibility, and who shall present an acceptable thesis upon a subject pertaining to Engineering.

Application for this Degree must be made, and the thesis presented, at least *three months* before commencement.

Degrees Conferred in 1891.

At the Commencement in 1891, Degrees were conferred upon the following Graduates :

Bachelor of Arts.

EMILY ATKINSON,	Moorestown, N. J.
ELIZA REBECCA HAMPTON,	Spring Brook, N. Y.
ELIZA GILLINGHAM HOLMES,	Moorestown, N. J.
LUCY SUTTON LIPPINCOTT,	Riverton, N. J.
ALEXANDER MITCHELL PALMER,	Stroudsburg, Pa.
MARY LILIAN YARNALL,	Ward, Pa.

Bachelor of Letters.

COSMELIA JANNEY BROWN,	Lincoln, Va.
HANNAH HALLOWELL CLOTHIER,	Wynnewood, Pa.
ESTHER HAVILAND,	Brooklyn, N. Y.
DORA LEWIS,	Media, Pa.
CHESTER PASSMORE MARTINDALE,	Oxford, Pa.
SARAH THOMAS MOORE,	Sandy Spring, Md.
ELLEN PASSMORE,	Oxford, Pa.
MARIANNA SMITH,	Lincoln, Va.
FRANCES MARIA WHITE,	Lansdowne, Pa.

Bachelor of Science.

IN SCIENCE.

WILLIAM CAMERON SPROUL, Chester, Pa.
 KATHARINE LOWE TYLER, Philadelphia, Pa.
 EDWARD CLARKSON WILSON, Bloomfield, Ont., Can.

IN ENGINEERING.

LOUIS PELOUZE CLARK, Haverford College, Pa.
 ISAAC ONWARD HARPER, Baltimore, Md.
 JOHN W. HUTCHINSON, JR., New York City.
 HARRY LEE McDONALD, Kansas City, Mo.
 EDWARD BRINTON TEMPLE, Ward, Pa.

Master of Arts.

MARY EASTMAN GALE, A.B., 1882, Laconia, N. H.
 MARTHA MAGILL WATSON, A.B., 1886, Trenton, N. J.

Civil Engineer.

FRANK CAWLEY, B.S., 1888, Earlington, Ky.

Officers of the Alumni Association.

INCORPORATED 1882.

President.

EDWARD H. KEISER, '80, . . . Bryn Mawr College, Pa.

Vice-Presidents.

FERRIS W. PRICE, '74, . . . Swarthmore College, Pa.

* I. BYRON THOMAS,

MARIE A. KEMP, '79, . . . Swarthmore College, Pa.

Secretary.

JESSIE PYLE, '88, . . . London Grove, Pa.

Treasurer.

JOSEPH T. BUNTING, '77, . . . Drexel Building, Phila., Pa.

Recorder.

HERMAN HOOPES, '74, . . . 516 Minor St., Phila., Pa.

Board of Directors.

ELLEN H. E. PRICE, '74, . . . Swarthmore, Pa.

FRANK L. BASSETT, '76, . . . Girard Building, Phila., Pa.

WILLIAM J. HALL, '78, . . . Swarthmore College, Pa.

FREDERIC P. MOORE, '85, . . . 15 Cortlandt St., New York City.

EMMA GAWTHROP, '88, . . . Wilmington, Del.

MORRIS L. CLOTHIER, '90, . . . Wynnewood, Pa.

* Deceased 11th mo. 13th, 1891.

Graduates.

Class of 1873.

SARAH H. (ACTON) HILLIARD, A.B., Salem, N. J.
HELEN (MAGILL) WHITE, A.B. (Ph.D., Boston University,
1877), Ithaca, N. Y.
ELIZABETH C. (MILLER) HOLCOMB, A.B., Swarthmore, Pa.
ESTHER T. MOORE, A.B., Swarthmore College, Pa.
*MARIA C. (PIERCE) GREEN, A.B., 1877.
LOWNDES, TAYLOR, A.B., West Chester, Pa.

Class of 1874.

ELLEN H. (EVANS) PRICE, A.M., 1884, Swarthmore, Pa.
AMY W. (HALL) HICKMAN, A.B., West Chester, Pa.
*ALFRED T. HAVILAND, B.S., 1874.
MARY (HIBBARD) THATCHER, A.B., Wilmington, Del.
HERMAN HOOPES, C.E., 1879, Philadelphia, Pa.
FERRIS W. PRICE, A.M., 1887, Swarthmore, Pa.
ELIZABETH S. (WOOLSTON) COLLINS, A.B., Germantown, Pa.

Class of 1875.

JOHN B. BOOTH, A.B., Pittsburgh, Pa.
HELEN (COMLY) WHITE, A.B., Lansdowne, Pa.
FRANKLIN H. CORLIES, B.S., Philadelphia, Pa.
*HERBERT G. DOW, A.B. (and Harvard, 1877), 1878.
LIZZIE (HANES) TAYLOR, A.B., Woodstown, N. J.
EDITH R. (HOOPER) ROBERTS, A.B., Titusville, Pa.
BARTON HOOPES, JR., B.S., Philadelphia, Pa.
*OLIVER KEESE, JR., B.S., 1879.
J. REECE LEWIS, B.S., Aiken, N. C.
HOWARD W. LIPPINCOTT, A.B., Philadelphia, Pa.
MARTHA (MCILVAIN) EASTWICK, A.B., Philadelphia, Pa.
JOHN K. RICHARDS, A.B. (and Harvard, 1877), Ironton, Ohio.
WILLIAM H. RIDGWAY, C.E., 1879, Coatesville, Pa.

Class of 1876.

FRANK L. BASSETT, B.S. (D.D.S., Phila. Dental College,
1878), Philadelphia, Pa.
ARTHUR W. BRADLEY, A.B., St. Paul, Minn.

*Deceased.

- FRANCES (LINTON) SHARPLESS, A.M., 1881 (M.D., Women's Medical College, Phila., 1886), West Chester, Pa.
 ELIZABETH L. (LONGSTRETH) BOYD, A.B., Haverford College, Pa.
 JAMES T. MCCLURE, B.S., Philadelphia, Pa.
 EMMA MCILVAIN, A.B., Philadelphia, Pa.
 EDWIN MITCHELL, JR., A.B. (B.L. and B.S.R., Sorbonne, Paris, 1877), New York, N. Y.
 LUCY R. (PRICE) MCINTYRE, A.B. (1880), Philadelphia, Pa.
 ISAAC G. SMEDLEY, B.S. (M.D., Hahnemann Medical College, 1879), Philadelphia, Pa.
 HERBERT W. SMITH, A.B. (and Harvard, 1878; Ph.D., Göttingen, 1884), Bryn Mawr College, Pa.
 MARY WILLITS, A.M., 1881 (M.D., Women's Medical College, Phila., 1881), Philadelphia, Pa.
 WILLIAM P. WORTH, B.S., Coatesville, Pa.

Class of 1877.

- JOSEPH T. BUNTING, B.S. (LL.B., Univ. of Pa., 1880), . . Philadelphia, Pa.
 NORMAN B. CORSON, A.B., Norristown, Pa.
 EUDORA MAGILL, A.B., Swarthmore, Pa.
 JESSE N. NORTON, A.B. (and Harvard 1879), Ironton, Ohio.
 CARROLL R. WILLIAMS, A.M., 1882 (LL.B., Univ. of Pa., 1880), Philadelphia, Pa.
 FLORENCE M. YEATMAN, A.B., Norway, Pa.

Class of 1878.

- CAROLINE E. (BURR) HALL, A.B., Swarthmore, Pa.
 MAYBELL P. DAVIS, A.B., Newtonville, Mass.
 HOWARD DAWSON, A.M., 1882, Boston, Mass.
 TACY A. (GLEIM) DUNNING, A.B., Seattle, Wash.
 WILLIAM J. HALL, B.S., Swarthmore College, Pa.
 MARY P. (HALLOWELL) HOUGH, A.M., 1881 (Women's Medical College, Phila., 1881), Ambler, Pa.
 CHARLES A. HAWKINS, A.B., York, Pa.
 WILLIAM PENN HOLCOMB, M.L., 1882 (Ph. D., Johns Hopkins Univ., 1886), Swarthmore College, Pa.
 REBECCA S. (HUNT) WHITE, A.M., 1881 (M.D., Women's Medical College, Phila., 1881), Lansdowne, Pa.
 ANNA E. (JACKSON) MONAGHAN, B.L., West Chester, Pa.
 LLEWELLYN H. JOHNSON, B.S., Orange, N. J.
 EDWARD MARTIN, A.M., 1882 (M.D., Univ. of Pa., 1883), Philadelphia, Pa.
 FRANCIS J. PALMER, B.S., Brooklyn, N. Y.
 ISRAEL ROBERTS, B.S., Camden, N. J.
 WILLIAM SEAMAN, C.E., 1884, Wilmington, Del.
 C. HARRY SHOEMAKER, B.S., Philadelphia, Pa.

Class of 1879.

ISAAC R. COLES, C.E., 1880,	Brooklyn, N. Y.
WILLIAM P. FENDER, A.B.,	Williamsport, Pa.
WILLIAM LEA FERRIS, A.B.,	Denver, Col.
JOSEPH FITCH, A.B.,	New York, N. Y.
RUTH ANNA FORSYTHE, A.B.,	Philadelphia, Pa.
ELIZABETH (FURNAS) BOGARDUS, B.L.,	New York, N. Y.
P. LESLEY HOPPER, A.B.,	Havre de Grace, Md.
MARIE A. KEMP, A.B.,	Swarthmore College, Pa.
ELISHA E. LIPPINCOTT, B.S.,	Gallitzin, Pa.
*SAMUEL CRAIG MCCOMB, C.E., 1882,	1891.
CHARLES R. MILLER, B.L. (LL.B., Univ. of Pa., 1881),	Wilmington, Del.
JOSEPHINE (WHITE) BRECKENS, A.B.,	Cheyenne, Wyoming.
ABIGAIL M. (WOODNUT) MILLER, B.L.,	Wilmington, Del.

Class of 1880.

ANNA E. CONSTABLE, A.B.,	Philadelphia, Pa.
ARTHUR COLEMAN DAWSON, B.L., 1882,	Chicago, Ill.
FLORENCE HALL, A.B.,	Chappaqua, N. Y.
MYRA T. HILLMAN, A.B.,	Washington, D. C.
EMILY L. (HOUGH) SAVIDGE, A.B. (and Univ. of Minn., 1881),	Boise City, Idaho.
EDWARD H. KEISER, M.S., 1881 (Ph.D., Johns Hopkins Univ., 1884),	Bryn Mawr College, Pa.
GEORGINE (KURTZ) MUHLENBERG, A.B.,	Reading, Pa.
ALBERT R. LAWTON, A.M., 1885,	New York, N. Y.
ROBERT J. MARCHER, B.S.,	Syracuse, N. Y.
THOMAS L. MOORE, A.B.,	Richmond, Va.
ELLEN S. (PRESTON) GRIEST, A.B.,	Cedarville, Va.
JOHN TURTON, B.S.,	New York, N. Y.
FANNIE (WILLETS) LOWTHORP, A.B.,	Trenton, N. J.
HENRY S. WOOD, C.E., 1883,	San Francisco, Cal.

Class of 1881.

MARTHA BUNTING, B.L.,	Philadelphia, Pa.
WILLIAM CANBY, JR., B.L.,	St. Paul, Minn.
CHARLES B. DORON, B.L.,	Rochester, N. Y.
MARY J. ELLIOTT, B.L.,	Philadelphia, Pa.
EMMA KIRK, B.L.,	Bryn Mawr, Pa.
GERTRUDE B. MAGILL, A.B.,	Swarthmore, Pa.
EUGENE PAULIN, JR., A.B. (and Harvard, 1883),	Bloomfield, N. M.
MARTHA E. (RHINOEHL) OSEBORN, A.B.,	Philadelphia, Pa.
EDWARD C. RUSHMORE, B.S. (M.D., Columbia, 1885),	Tuxedo Park, N. J.

HENRY B. SEAMAN, C.E., 1884,	New York, N. Y.
CHARLES E. SHARPLESS, C.E., 1884,	Phillipsburg, Pa.
ALVIN T. SHOEMAKER, B.L.,	New York, N. Y.
* I. BRYON THOMAS, B.S.,	1891.
ERNEST F. TUCKER, A.B. (M.D., Harvard, 1884),	Portland, Ore.

Class of 1882.
